VEDANT PAWAR AMRAVATI, MAHARASHTRA, INDIA
VEDANTPAWAR0915@GMAIL.COM | +917249207351

AI/ML Developer with hands-on experience building real-world AI systems using NLP, APIs, and scalable backends, and familiarity with Linux administration. Strong in FastAPI and Gradio with end-to-end model integration, prompt engineering, and real-time user interaction.

PROFESSIONAL EXPERIENCE

Incubators 01/2026 - 03/2026

AI/ML & IoT Intern

- Developed CREVA AI Robot, a multi-domain system covering 7 domains, utilizing data engineering principles and integrating with web interfaces using APIs
 - Worked on NLP, Web Development, and System Integration, applying knowledge of Linux and data pipelines
 - Built pipelines for user interaction → AI processing → response generation, demonstrating understanding of data flow and processing
 - Integrated AI modules with web interfaces using APIs, and explored the use of PySpark for data processing
 - Contributed to real-world AI + IoT system architecture and deployment, with a focus on scalable and efficient systems
-

EDUCATION

Shri shivaji science college Amravati 07/2022 - 05/2025

Bachelor of Computer Applications (BCA) - CGPA: 6.76, providing a foundation in computer science and programming, including exposure to SQL Server and database management

PROJECTS

CREVA AI System (Multi-Domain AI Robot)

- Built NLP-based interaction pipeline: user input → AI processing → AI response, integrating multiple AI modules and APIs into a unified system
- Demonstrates large-scale AI system design and integration, with a focus on data engineering and Linux administration
- Advanced NLP System (Voice + Multi-language AI)
- Developed NLP system using Flask + FastAPI, and added voice output (gTTS, ElevenLabs) and multi-language support

- Designed scalable API-based communication, utilizing data pipeline principles and PySpark for data processing
 - AI Career Guidance & IQ System
 - Generated IQ tests and delivered personalized feedback using AI APIs, built on a FastAPI backend with Gradio UI
 - Demonstrates applied AI decision systems, with a focus on data-driven insights and SQL Server database management
-

KEY SKILLS

- | | | |
|---|----------------------|-----------------------------|
| • - Languages: Python | • MySQL | • - AI/ML: NLP |
| • Machine Learning | • Prompt Engineering | • - Frameworks: FastAPI |
| • Flask | • Gradio | • - Libraries: Scikit-learn |
| • Pandas | • NumPy | • - APIs: OpenRouter |
| • SerpAPI | • ElevenLabs | • gTTS |
| • - Tools: Git | • GitHub | • VS Code |
| • with experience in Linux and data engineering | | |
